UX SPECIALIST

Baltimore, MD

EXPERIENCE

User Experience Specialist

Jun 2019 - Present

UserWorks Inc., Silver Spring, MD

- Analyzed research findings from usability studies, and presented high impact data visualizations to clients
- Recommended actionable solutions for accessibility issues in websites using WCAG 2.1 and assistive technology
- Recruited over 500 participants using online surveys and phone screenings
- Gave a talk at DCUX 2019 on the seven colors of the accessibility rainbow

UX Researcher (Academic Project)

Feb 2020 - May 2020

The United Way of Central Maryland, Baltimore, MD

- Led a team of four UX Researchers to conduct focus groups and interviews with politicians, community organizers, and people from low-income communities
- Synthesized data from reports and interviews to identify key insights
- Ideated as a team and iteratively designed prototypes and roadmaps for policies that can bring financial stability to low-income communities in Maryland

UX Designer

May 2019 - July 2019

The Erickson School of Aging Studies, UMBC, MD

- Designed a Mobile App for the residents of a retirement home to track and analyze activities
- Conducted field visits to understand users' environment and developed prototypes
- Worked closely with an iOS developer to build a project plan

Team Lead, Accessibility Specialist (Academic Project)

Feb 2019 - Apr 2019

AIR-U Knowledge, Austin, TX

- Led a team of five developers and designers to build a website for a non-profit organization that complies with WCAG 2.0 and won the national web accessibility competition produced by Knowbility
- Defined requirements, built prototypes iteratively and ensured a smooth design handoff
- Facilitated inclusive design by extracting first-hand insights from participants with disabilities

UI/UX Designer

Feb 2018 - Jun 2018

Coditas Technologies, Pune, India

- Led the design of a Customer Relationship Management website
- Conducted interviews and prototyped using continuous feedback to ensure high-quality usability
- Collaborated closely with Product Managers, Developers, and fellow Designers
